TEMPERANCE COLUMN

Conducted by the W. C. T. U.

At Fort Worth Texas.

Thanksgiving ribbons were in convention for a week. The whole nation was represented. A welcome by the Hon. T. J. Powell who said you women stand for all that is best in civilization and in the municipal lives of our people all over the world. How greatly this city has been honored by your presence here etc. etc. This is all we have room to quote of the mayor of Fort Worth. The Y. M. C. A. Sec. Mr. Reeves says I came west a stranger. I found but one door practically opened to me and that door you ladies have for many years been trying to open, yes, I welcome you.

The "Miss Telegram" represented by Mr. Bateman welcomes you. The Press of the civilized world has followed the W. C. T. U. and there is no class of men on earth excepting police officers that is better acquainted with the war you are waging against vice and sin than the gentlemen of the Press. The ministry welcomes you in the words of the southland "Honey" and that means deposit your umbrella on our hall rack, put your reticule upstairs on our bed, remove your wraps, then draw a chair up by our pleasant fire and make yourself comfortable.

The welcomes continued.

Much of the state of Texas is under Prohibition and not a distillery in the state and some of the Court houses in the prohibition Counties are rented out for dwelling houses.

Miss Willard's statue is to be placed Monumental Hall at Washington being the only lady there.

Unusual courtesies were extended to the ladies. A large dry goods store had a beautiful white ribbon window.

One of the leading restaurants declined to serve wine as a compliment to the ladies. From the Union Signal.

DEAFNESS OR HARD HEARING ARE NOW CURABLE

by our new invention. Only those born deaf are incurable.

HEAD NOISES CEASE IMMEDIATELY.

F. A. WERMAN, OF BALTIMORE, MARYLAND.

Gentlemen:—Being entirely cured of deafness, thanks to your treatment, I will now give you a full history of my case, to be used at your discretion.

About five years ago my right ear began to ring, and this kept on getting worse, until I lost my hearing in this ear entirely.

I underwent a treatment for catarrh, for three months, without any success, consulted a number of physicians, among others, the most eminent ear specialist of this city, who told me that only an operation could help me, and even that only temporarily, that the head noises would then cease, but the hearing in the affected ear would be lost forever.

I then saw your advertisement, accidentally in a New York paper, and ordered your treatment. After I had used it only a few days according to your directions, the noises ceased, and to-day, after five weeks, my hearing in the diseased ear has been entirely restored. I thank you heartily and beg to remain

Very truly yours,
F. A. WERMAN, 720 B. Broadway, Baltimore, Md.

Our treatment does not interfere with your usual occupation.
